

AGRIC

1. Dicotyledonous plants have _____ a. four cotyledons b. three cotyledons c. two cotyledons d. one cotyledon
2. Which of these is very difficult to use if the number of pest is high a. chemical control b. physical control c. biological control d. cultural control?
3. _____ involves the use of natural enemies of insect pests and weeds against them a. physical control b. chemical control c. cultural control d. biological control
4. Examples of crops that store food in their roots are these except _____ a. Cassava b. potato c. Carrot d. sugarcane
5. Procurement of loan or capital for farming activity is one of _____ functions of a farm manager A. administration B. production C. organisation D. marketing
6. Wooden and metal structures should be _____ to prevent waering away.
(a) Painted (b) coloured (c) Decorated (d) swept
7. _____ should be cleaned and disinfected after each operation.
(a) Silos (b) Poles (c) Abattoirs (d) Fences
8. _____ should be cleaned and kept air tight.
(a) silos (b) Poles (c) Abattoirs (d) Fences
9. The chemical that can be used to prevent the activities of insects on wooden materials is
(a) called (a) sodium hydroxide (b) solignum (c) potassium chloride (d) oxygen
10. A round farm structures constructed from mud with a grass or thatch roof is
11. Barns (b) Rhumbus (c) Barns (d) Silos
12. The first factor that must be considered before siting a farm is: (a) nearness to school (b) accessibility (c) availability of land (d) security
13. Protection of farm structures mean? (a) presence of security (b) protection from wind and erosion (c) protection from thieves (d) vigilante watch
14. A flat level land should be used for the school farm for the following reasons except (a) to increase fertility of soil (b) to reduce erosion (c) to reduce the cost of production (d) to promote percolation
15. The best soil type for farming is? (a) sandy soil (b) clayed soil (c) loamy soil (d) sand-clayed soil
16. Monocotyledonous plants have _____ a. four cotyledons b. three cotyledons c. two cotyledons d. one cotyledon
17. Primary tillage is otherwise known as _____ (a) harrowing (b) ploughing (c) ridging (d) stumping

- 18.2. Secondary tillage is otherwise known as ____ (a) harrowing (b) ploughing (c) ridging (d) stumping
- 19.3. In farm layout, plots undergo _____ (a) division (b) multiplication (c) digging (d) covering
- 20.4. The operation that follows tillage is (a) ridging (b) stumping (c) clearing (d) layout
- 21.5. Stumping is carried out with the following except _____ (a) gun (b) cutlass (c) bulldozer (d) axe
22. One of the following is not a basic consideration in planting operation (a) (a) spacing (b) depth (c) time (d) pod
23. When seeds are sown in soil, it develops roots and shoots. This is called (a) germination (b) seedlings (c) sowing (d) development
24. The distance between two sown seeds/plants is ____ (a) planting space (b) time (c) planting depth (d) planting seed
- 25.4 Some seeds are raised in the nursery because (a) the seedlings are weak (b) the seedling are green (c) the seedling love the nursery (d) so that the can get enough sunshine
26. This is the distance of the sown seed in the soil (a) planting time (b) planting depth (c) spacing (d) number of seeds
27. Harvesting involves the removal of ----- crops. A. big B. matured C. small D. smooth
28. Harvesting tools include the following except A. basket B. knife C. harvester D. secateurs
29. One of the effects of late harvesting is..... A. increase of harvest B. loss of product C. sale of product D. enhanced market
30. One of the reasons for processing is..... A. to increase the quantity of the product B. to make it scarce C. to prevent spoilage D. to increase demand
31. Methods of storage include the following except? A. use of barns B. use of shops C. use of baskets. D. use of silos
32. Which of these farming systems involve crops production? (a) (a) ley farming (b) ranching (c) mixed farming (d) nomadic farming
33. The land is left for to years to rest in bush fallowing. (a) (a) 3 – 5 years (b) 7 – 10 years (c) 15 – 20 years (d) 20 – 30 years
34. Which of these farming systems involves the production of crops and the rearing of animals? (a) mixed farming (b) pastoral farming (c) bush fallowing (d) ranching
35. Ranching is a form of animal production system. (a) (a) extensive (b) semi-intensive (c) intensive (d) semi-extensive
36. In which of these farming systems is pasture grown for farm animals? (a) (a) ley farming (b) mixed farming (c) bush fallowing (d) shifting cultivation

THEORY A

1. State two disadvantages of mixed farming.
2. What is nomadic farming?

THEORY B

1. What is storage?
2. Mention two crops whose processing starts from the farm.

THEORY C

1. What is planting operation?
2. Explain sowing in-situ.
3. Explain five basic considerations in planting operations.

THEORY D

1. What is cultural practice?
2. Define the following terms: (a) land clearing (b) ridging

THEORY E

1. State and explain two factors to be considered before sitting farms
2. Mention four uses of water in the farm.

THEORY F

1. How can farm buildings be maintained?
2. State three farm structures and state the ways of maintaining them.

THEORY G

1. Classify crop according to: (a) economic uses (b) the life cycle (c) number of cotyledons.
2. Define the following terms annuals, biennials and perennials.
3. What is management?
4. Mention and briefly explain five major functions of a farm manager.

BASIC TECH

1. What rescue operation is right for someone trapped in a vault? (a) cave rescue (b) confined space rescue (c) surface-water rescue (d) ASR
2. What do we call the rescue of people trapped in a collapsed building? (a) CSAR (b) mine rescue (c) urban search and rescue (d) confined space rescue
3. _____ is used to extricate individuals from wrecked vehicles (a) Helicopters (b) Rescue dogs (c) Ambulance (d) Hydraulic cutting and spreading tools
4. Which of the following does not require rescue operations (a) collapsed building (b) fire outbreak (c) phone calls (d) natural disasters
5. _____ is the coordinated search and rescue of emergency water landings as well as people who have survived shipwreck or boat mishap (a) ASR (b) CSAR (c) Cave rescue (d) RRS
6. Identify this line. _____ (a) thin continuous line (b) ruled zigzag line (c) arrow head line. (d) short dashes.
7. The type of line used in showing visible outline is (a) thin continuous line (b) thick continuous line (c) thin ruled zigzag line (d) thick continuous wavy line.
8. The shortest distance between two points is _____ (a) curve (b) straight line (c) crooked line (d) parallel line
9. Which of the following is not a property of a line? (a) It has position and length (b) It has width and thickness (c) It has virtually no thickness (d) It may be a straight line or curved line.
10. The line that is used in showing hidden details is _____ (a) thin continuous (b) thick continuous (c) arrow hand (d) short dashes
11. The angle that FC makes when constructed perpendicular with line AB is _____ (a) 180° (b) 270° (c) 90° (d) 120°
12. The line FC is called _____ (a) vertical (b) perpendicular (c) Horizontal (d) incline
13. Which of the following drawing materials cannot be used to construct a straight line? (a) Compass (b) protractor (c) Ruler (d) pencils
14. Angles that sum up to 180° is called _____ (a) supplementary (b) complementary (c) Reflex (d) obtuse
15. The line for all visible outlines is called _____ (a) Thin continuous line (b) Thick continuous line (c) short dashes (d) Zig – Zag lines.
16. Which of the following triangles has all its sides equal? (a) Equilateral (b) Scalene (c) Isosceles (d) Right-angled
17. Which of the following triangles has none of its side equal? (a) Equilateral (b) Scalene (c) Isosceles (d) Right-angled
18. Which of the following triangles has all two sides equal? (a) Equilateral (b) Scalene (c)

Isosceles (d) Right-angled

19. What is the center rule formula used to construct a polygon as well as dividing a circle into equal parts? (a) $360 - N$ (b) $360 \times N$ (c) $\frac{360}{N}$ (d) $360 + N$
20. The perpendicular distance from the vertex to the base of triangles is called _____. (a) vetoed (b) Aptitude (c) Altitude (d) Interior
21. The part of the circle that is bounded by an arc or cord is (a) segment (b) sector (c) diameter (d) tangent.
22. A straight line drawn through the centre, meeting the circumference at both ends is called (a) sector (b) radius (c) diameter (d) tangent
23. A plane figure bounded by a curved line called circumference is called----- (a) triangle (b) circle (c) quadrilaterals (d) curved line
24. Any straight line drawn across the circle, meeting the circumference at both ends is called (a) chord (b) tangent (c) radius (d) diameter
25. Which of the following can be used to draw a circle? (a) protractor (b) French curve (c) compass (d) template
26. Hardware examples includes the following except _____
(A) Monitor (B) mouse (C) operating system (D) keyboard
27. F.M Means _____
28. One of these is an example of analogue signal/device
a. Computer system (B) human voice (C) dvd player (D) plasma tv
29. The demerits of the internet includes these except _____
a. Access to library (B) pornography (C) cybercrime (D) fraud
30. Ferrous metal are metal which contains _____
a. Cupper (B) iron (C) carbon (D) silicon
31. The basic material for the production of ceramics is _____
a. Clay (B) humidity (C) resuscitation (D) temperature
32. A.M Means _____
33. Tyres is made from _____
a. Ceramic (B) rubbers (C) metals (D) wood
34. G.S.M Stands for _____
a. _____
35. _____ is the degree of hotness or coldness of a body or place
a. Pressure (B) humidity (C) resuscitation (D) temperature
36. The following are software except _____
a. (A) Cedar (B) pine (C) iroko (D) spruce
37. The letter "S" in S.I.M Stand for _____
a. Server (B) subscriber (C) system (D) source
38. Bronze is an alloy of _____ and copper
a. Tin (B) zine (C) sliver (D) aluminum
39. Ceramics have been used for ages in _____
a. Law (B) medicine (C) sculpture (D) politics
40. Gentian violet is _____ in colour
a. Red (B) yellow (C) white (D) purple

THEORY A

1. Draw a circle of radius 35mm and divide it into 12 equal sizes.
2. Draw a circle and with shaded portion show (i) quadrant (ii) sector (iii) segment inside the circle.

THEORY B

1. Construct a rectangle of length 7cm and breadth 5cm with the aid of compass and ruler.
2. Construct a square with diagonal 5cm.

THEORY C

1. (a) Define a line.
(a) Draw a line AB of 60mm and divide the line into 8 equal parts.

Draw line AB equals to 10cm and divide into proportions

THEORY D

1. (a) What are rescue operations?
(b) Explain "Vehicle extrication"
2. State the function of the following in rescue operations:
(a) rescue dogs (b) ambulance

CRS

1. ____ prophet prophesied the birth of Jesus Christ.
a. (a) Isaiah (b) Jeremiah (c) John (d) James
2. The fulfillment of the promises of God revealed God as ____
a. (a) Dishonest (b) faithful (c) Gullible one (d) unreliable
3. The name "Emmanuel" means ____
a. (a) God with us (b) God cares for us (c) God is faithful (d) the fear of God
4. According to Prophet Isaiah the kingdom of Jesus will ____
a. (a) Come to an end (b) not come to an end (c) come to an end if we are not faithful (d) show the power of God
5. We can best overcome sexually transmitted diseases by ____
a. (a) keeping our self-pure (b) yield to our desires (c) using preventive measures (d) cleaning our environment
6. The birth of Jesus took place in the city called (a) Nazareth (b) Galilee (c) Bethlehem of Judea (d) Jericho
7. Who made a decree that census should be conducted throughout the world at that time? (a) Pharaoh (b) Herod (c) Caesar Augustus (d) Pilate
8. Who appeared to the shepherds at the night a child was born? (a) an angel (b) a Prophet (c) a star (d) a seer
9. Why was Jesus not given birth to at the inn? (a) the owner was wicked (b) It was too costly (c) It was full (d) the midwife was not around
10. Gold represents ____ function. (a) kingship (b) priestly (c) prophetic (d) spiritual
11. Joseph was asked to flee from Bethlehem to _____. (a) Egypt (b) Judea (c) Jerusalem (d) Syria
12. After the death of Herod, they returned to _____. (a) Egypt (b) Jerusalem (c) Jericho (d) Nazareth
13. At what age did Jesus accompany his parents to the temple in Jerusalem (a) 10 (b) 12 (c) 15 (d) 17
14. Jesus was not accepted at ____ city (a) Nazareth (b) Bethany (c) Ai (d) Bethany
15. A prophet is not without ____ except in his own country. (a) place (b) honour (c) brother (d) pride
16. Jesus came from ____ to be baptized (a) Galilee (b) Nazareth (c) Jordan (d) Jericho
17. Jesus was baptized in river ____ (a) Nile (b) Jordan (c) Taraba (d) Tekoa
18. Jesus fasted for ____ days and night (a) 40 (b) 30 (c) 20 (d) 70
19. The father of John the Baptist was _____. (a) Nehemiah (b) Heber (c) Jonash

- a. (d) Zachariah
20. John was preaching in the _____. (a) forest (b) bush (c) wilderness (d) neighbourhood
- (a) _____ is the suggestion to do evil.
(b) trial (b) temptation (c) persecution (d) low self esteem
21. The first temptation of Jesus was to _____.
a. Turn stone to bread (b) jump down (c) worship Satan (d) show off his power
22. Thou shall not tempt the Lord your God was said by _____.
a. (a) Jesus Christ (b) John the Baptist (c) Satan (d) Caiaphas
23. According to Matthew's account the third temptation of Jesus Christ was to _____.
a. (a) turn stone to bread (b) jump down (c) worship Satan (d) walk on water
24. The first temptation of Jesus Christ was to make him _____ Messiah.
a. (a) economic (b) political (c) peaceful (d) geographical
25. Who was referred to as the tax collector among the twelve disciples (a) Andrew (b) Matthew (c) Peter (d) James
26. Who among the disciples betrayed Jesus Christ? (a) Simon Peter (b) John (c) Judas Iscariot (d) Philip
27. How many disciples were they in number? (a) 12 (b) 10 (c) 15 (d) 20
28. The following are part of the first four disciples of Jesus except _____ (a). Philip (b). Andrew (c). James (d). John
29. Jesus was _____ years old when he began to teach and preach (a) 30 (b) 33 (c) 40 (d) 25
30. One of the following is the type of courage _____ (a) Moral courage (b) commitment
c. Steadfast (d) Endurance
31. Jesus was born in a _____ (a) management (b) Manager (c) Manger
32. Simeon was a _____ and _____ man
(a) righteous and useless (b) corrupted and undevoted
(c) righteous and devoted
33. _____ after birth, Jesus was presented to God in the temple in Jerusalem, according to Jewish tradition

- (a) 32 (b) 40 (c) 47
34. _____ had been promised by the holy spirit that he would see Jesus Christ the savior before his death
(a) Aaron (b) Noah (c) Simeon
35. Anna was _____
(a) 84 years and prophetess (b) 74 years and teacher
(c) 64 years and messenger

THEORY A

1. What is the third temptation according to St. Matthew's gospel?
2. Write the names of six out of the twelve disciples.

THEORY B

1. Describe the baptism of Jesus.
2. State the significance of Jesus' baptism.

THEORY C

1. Describe the reaction of Jesus to the people of Nazareth.
2. "Jesus is the greatest teacher", explain.

THEORY D

1. State the gifts given to Jesus.
2. What are the functions of the gifts presented to Jesus?

THEORY E

1. Give the account of the prophecy of prophet Isaiah about Jesus Christ.
2. What can we do for God to use us like Virgin Mary?

ENGLISH

Fill in the blank space with the most appropriate option from the list given in the bracket.

1. The man sells many books and ____ in his book shop. (many stationary, a stationary, much stationary)
2. The storm did ____ damage to the house. (a, an, much)
3. The principal has bought ____ for the science laboratory. (equipment, much equipment)
4. He eats ____ every day. (egg, eggs, egg)
5. Dr. Bowen is ____ European but Mr. Woo is ____ American. (an/an, a/a, a/an)
6. He worked for ____ hour. (a , an, many)
7. All the following except ____ can be found in a court of law. a. judges b. police officers c. magistrates d. moderators e. persecutors
8. A country's Armed Forces are made up of its ____ a. Army, Navy and Airforce b. Police, Army and Airforce c. Judge, Airforce and Police Forces d. Army, Magistrates and Air Force e. Navy, Army and Police Force
9. The statement 'The accused was acquitted and discharge means that the accused was ____ a. found guilty and set free b. found guilty but severely warned c. found innocent and set free d. found guilty and jailed e. found guilty but conditionally set free
10. The accused has ____ against the judgment. a. written b. spoken c. decided d. register e. appealed
11. Someone complained against in a court of law is the ____ a. lawyer's client b. defendant c. defence d. plaintiff e. accused
12. Out of the following verbs, only ____ is always transitive. A. describe b. sleep c. eat
13. In the sentences, she ate the bread throughout the day, direct object is ____ a. she b. the day c. the bread
14. In the sentence, "He spoke with enthusiasm". The word 'spoke' is ____ A. a transitive verb b. a mono transitive verb c. an intransitive verb
15. Unfortunately, 'He is now a complete gentleman', the subject is ____ a. fortunately b.

He c. a complete gentleman

16. The passive form of the sentence 'The bad road caused the accident' is __ a. The accident is caused by the bad road b. The accident was caused by the bad road c. The accident had been caused by the bad road

Comprehension

Blood is a red liquid that is pumped around the body by an organ called the heart. A healthy adult has between 5 and 6 litres of blood in the body

Different people have different kinds of blood. The four main types or group are O, A,B and AB but there are other rarer blood groups too.

If someone has an accident and loses a lot of blood, their life can be saved by pumping more blood form someone else's body into them. This is called blood transfusion. Its important that patients are given blood of the right group that is, the same kind of blood that they have in their bodies ; otherwise the blood may stick together, and the patient may die.

Question

17. What is the organ that pumps blood around the body called?
18. How much blood does an average person have in his or her blood?
19. List the four main groups the human blood belongs to
20. What is blood transfusion
21. What happens when the wrong type of blood is given to a person who is short of blood?

SECTION B

22. Nigeria should not _____on oil alone.
(a) trust (b) profit (c) depend (d) produce
23. The thief escaped _____the window
(a) by (b) on (c) through (d) off
24. Last week, all the young men in my compound get together and _____
a well
(a) dig (b) dug (c) digging (d) draw
25. They _____to the teacher and laid her complaint
(a) go (b) went (c) going (d) gone
26. They _____at him
(a) staring (b) starred (c) stare (d) starre

Fill in the gap with the words listed below:

Brought	Resented	Hated	Escaped
Imposed	Resumed	Died	Loved

Although everyone felt for Ogwoma for being forced to marry man she ____6____, they ____7____her defiance of the custom in the name of love. But because she was an obedient daughter, she reluctantly ____8____the unjust violation of her human right to marry the husband of her choice.

When the husband ____9____upon her ____10____, she promptly, perhaps too quickly, ____11____her relationship with the man she ____12____. This was a taboo in the community, and ____13____disagree to Ogwoma's parents. But Ogwoma herself felt justified and fulfilled.

Write out the phonetic symbol the represents the underlined letters

14. Penss _____

15. Zeal _____

Choose the appropriate answer from the options below

16. These are my [a] child [b] children [c] childrens

17. My uncle gave me Pieces of advice [a] a [b] an [c] some

18. I would like sugar, please [a] some [b] plenty [c] an

19. The child of my uncle or aunt is my [a] cousin [b] nephew [c] nieces

Choose a suitable word from the box below to fill each of the fifteen numbered blanks in the paragraph below

Criminal	jail	lawyers
Crime	offender	evidence
Accused	guilty	committed
Persistent	court	deterrent
Sentencing	penalty	arrest

Police officers have a very difficult job fighting ---20----- when a crime has been21..... they must find out the facts, and collect the.....22....., once they have tracked down the23..... they have to24..... them and bring them to ...25.....

Clever...26..... will often be called to defend the27..... people, so the police have to be sure of the facts.

If the criminal is found28..... He or she is punished. Young or first time29..... maybe be given a warning, but30.....offenders are sent to31....., often for long periods.

The death ...32..... Is reserved for the worst crimes. Some people say that one should never take another person's life, even if they have committed the most terrible crime, others say that ...33..... murderers to death, act as34.....

Fill in the correct forms of the verb in bracket

35. I have never [visit] Lagos
36. I have[sleep] when the thieves came.
37. I have [forget] everything you told me.
38. Everybody got up and [sing] the national anthem
39. Taiwo Johnson has [grow] alots in the last year.
40. He often [fail] sick with malaria.

SECTION B

1. Write a narrative essay on the topic ' make hay when the sunshine'
2. Complete the following

PRESENT	PAST	PAST PARTICIPLE
Run	Ran	Run
Grow	Grew	Grown
Bite	Bitten	Bitten
Drive	Drove	Driven
Sow	Sowed	Sown
POSITIVE	COMPARATIVE	SUPERLATIVE
Bad	Worse	Worst
	Less	Least
	Better	

CCA

1. Which one of these classes of colour cannot be derived by mixing any other colours together?
a. Secondary colour (b) Primary colour (c) Intermediate colour (d) Tertiary colour
2.colours are obtained by mixing two primary colours equally.(a) Secondary (b) Primary (c) Intermediate (d) Harmonious
3. The mixture of two secondary colours forms acolour.(a) tertiary (b) secondary (c) intermediate (d) complimentary
4. White, black and grey arecolour. (a) harmonious (b) intermediate (c) tertiary (d) neutral
5. Colours that are directly opposite each other on the colour wheel are called.....(a) intermediate colour (b)harmonious colour (c) complimentary colour (d) tertiary colour
6. The shortest distance between two points is called(a) texture (b) line
a. shape (d) form
7. A pigment or hue is intensified or made lighter by adding white to in order to produce a(a)shade (b) tint (c) value (d) dark hue
8. A pigment or hue is disintensifiedor made darker by adding black in order to it to produce a(a) tint (b) shade (c) value (d) light hue
9. Which one of the following is **NOT** an element of art and design? (a) Proportion
- 10.(b)Line (c) Colour (d) Texture
11. The natural and artificial coloursvarious objects possess are called..... (a) local colour (b) primary colour (c) secondary colour (d) tertiary colour
12. Textile designers make the most use of the principle of(a) emphasis (b) proportion (c) repetition (d)registration
13. In pattern making, what principle of art and designs allows a colour to have a domineering presence over other colours? (a) Balance (b) Proportion (c) Dominance (d) Repetition
14. When some art elements are given equal weight in a work of art,.....is achieved.(a) balance (b) proportion (c)rhythm (d) repetition
15. The use of opposing, contrasting or diversifying elements in a composition thereby adding individualism and interest to such work is called.....(a) balance (b) repetition (c) variety (d) harmony
16. The use of closely related line, colour and shape in pattern making creates a sense of (a) harmony (b) repetition (c)balance (d) proportion
17. The special garments and other accessories designed to be worn by the players are called(a) costume (b) props (c) make up (d) None of the above
18. The elevated platform detached from the auditorium where live dramatic performances take place in a theatre is called(a) stage (b) auditorium (c) box office (d) None of the above
19. The creation of the visual aspect of a typical stage environment is the sole duty

- of the(a) theatre designer (b) master (c) manger (d) prompter
20. Which of the following aspects of theatre design illuminates the set design stage?
(a) Lighting (b) Properties of props (c) Props (d) Set
21. Another word for theatre design is(a) stenography (b) scenography
(c)serigraphy(d) None of the above
22. A series of steps and movements that match the speed and rhythm of a piece of music is called.....(a) gesticulation (b) dance (c) drama (d) None of the above
23. Dancing is a noble career performed by..... (a) musicians (b) dancers (c) prompters (d) None of the above.
24. The art of dancing is a sub-branch of(a) fine art (b) performing art (c) literary art (d) applied art
25. A form of dance that does not contain a plot and emphasizes a major subject or mood is called(a) comic dance (b) pure dance (c) dance drama (d) None of the above.
26. Dance is a medium of public entertainment. (a) True (b) False (c) Maybe (d) Not sure
27. Which of the following is NOT a benefit of self-control? (a) Enhancement of one's decision making capacity. (b) Success (c) Failure (d) Congruence
28. A person who is always in a fighting mood all the time(a) lacks self - control. (b) possessesself-control. (c) is jovial . (d) is well behaved.
29. Self-control entails the following except.....(a) moderation (b) modest (c) being in a fighting mood. (d) Not being in a fighting mood.
30. Being in the right frame of mind towards others willmake a person exerciseself-control at all time. (a) True (b) False (c) Maybe (d) Not sure
31. A person who is fond of using abusive words on people who offend him or her lacks(a) team spirit. (b) self - control. (c) good morals. (d) discipline.
32.refers to any form of noise, music and vibration heard through one's ear.(a) Voice (b) Sound (c) Pitch (d) Intensity
33. The following are classes of voice except.....(a) alto (b) bass (c) tenor (d) noise
34.refers to the pitch of women voice that is high. (a) Bass (b) Alto (c) Tenor (d) Soprano
35.refers to the pitch of the men voice that is low. (a) Tenor (b) Bass (c) Tenor (d) Alto
36. The sound produced from the mouth of human beings in various forms is called.....(a) intensity (b) voice (c) tone (d) pitch
37. The highness and lowness of musical sound is called(a)pitch (b) chord (c)timbre (d) intensity
38. A sound that is irregular and disorganized when heard through our ear is called (a) music (b) noise (c) Option a & b (d) None of the above.
39. The interval between the root note and the top note which comprises of eight notes is the(a) 1st interval (b) 8th interval (c) 2nd interval (d) Unison
40. A semibreve is a musical note the relative value (a) 1 (b) 1/4 (c) 1/8 (d) 1/16
41. In music, the word octave stands for the number (a) 2 (b) 4 (c) 8 (d) 6

THEORY

1. What is interval?
2. Define sound.
list five importance of colour as an element of art
3. list five branches of art with explanation
4. highlight five element and principle of art
5. list 5 material needed for drawing
6. what is drawing?

HOME ECONOMICS

1. A good home maker should be ____.
a. A. polite B. rude C. selfish D. right
2. A good home maker takes care of the ____.
a. A. school B. church C. home D. self
3. A good home maker should plan for the family.
a. A. False B. True C. Anyhow D. Not all the time.
4. ____ is one of the responsibilities of a home maker.
5. Maintaining the home B. Scolding the family members C. Abandoning the duties
a. D. Neglecting the home.
6. ____ is one of the qualities of a home maker.
a. A. Maintaining the home B. Creativity C. Mending the family clothing
b. D. keeping the home.
7. The functional area used as relaxation centre for family members is
a. A. kitchen B. dining room C. sitting room D. toilet
8. Side cupboard is a piece of furniture commonly found in the
a. A. passage B. dining room C. toilet D. sitting room
9. A set of settee is found in the
a. A. room B. kitchen C. bedroom D. sitting room
10. The functional area used for food preparation is
a. A. living room B. kitchen C. hall way D. dining room
11. There are _____ types of kitchen.
a. A. 4 B. 3 C. 2 D. 1
12. Which of the following does not belong to the group?
a. A. Bed B. Mattress C. Tub D. Wardrobe
13. These are functional rooms except _____.
a. A. bathroom B. dining room C. store D. kitchen
14. The most hygienic type of toilet is _____ toilet.
a. A. modern B. bucket C. pit D. bowl
15. A bedroom can be used for the following **except**
a. A. sleeping B. keeping valuable items C. privacy D. entertaining visitors
16. A shower curtain can be found in the _____.
a. A. modern toilet B. bedroom C. shower-type bathroom D. modern

bathroom

17. ____ is one of the materials needed for household cleaning.
a. A. Brushes B. Rake C. Matchet D. Wood
18. ____ is one of the cleaning equipment that uses electricity.
a. A. Vacuum cleaner B. Mop C. Brush D. Long broom
19. ____ is good for cleaning carpets and rugs.
a. A. Vacuum cleaner B. Mop C. Broom D. Cleaner
20. Brushes should be taken care of by ____
a. A. brushing B. drying C. painting D. soaking
21. Long-handed soft brooms and brushes are used for removing ____ from walls and ceilings.
a. A. objects B. ropes C. cobwebs D. dirt
22. Functional areas in the house should be cleaned both ____ and ____.
a. A. daily, weekly B. daily, monthly C. morning, night D. occasional, yearly
23. When cleaning a room, it is important to open the doors and windows to ____
a. A. dry the room B. air the room C. decorate the room D. open the room
24. It is necessary to shake the mattress about once a week in order to ____
a. A. renew it B. make it softer C. maintain its shape D. increase its length
25. The substances which remove dirt by liquefying it and holding it in suspension are called ____
a. A. solutions B. acids C. liquids D. solvents
26. One of the following can be applied to a surface to improve its appearance and to protect it.
a. A. Polish B. Acidic cleaner C. Solvent D. Alkaline cleaner
27. ____ is one of the materials used for holding flower during arrangement
a. A. Water B. Scissors C. Pebbles D. Pins
28. ____ adds colour and beauty to a room
a. A. Cutlery B. Flower C. Paint D. Equipment
29. ____ makes home cool and attractive
a. A. Decorations B. Craft C. Maps D. Arrangement
30. ____ provides privacy in a room
a. A. Furniture B. Decoration C. Curtains D. Colour
31. The right time to cut flowers for arrangement is ____
a. A. early morning B. in the afternoon C. in the noonday D. anytime
32. The name given to the variety of textile fabric used in the house is house ____
a. A. cotton B. linen C. Fabric D. fiber

33. All towels should be soft and ____
a. A. dry B. fluffy C. absorbent D. wet.
34. ____ is an example of bathroom linen.
a. A. Face towel B. Hand towel C. Floor towel D. Napkin
35. ____ is an example of kitchen linen.
a. A. Glass cloth B. Placemat C. Table napkin D. Table mat
36. Bed linen includes all these except ____
a. A. blankets B. pillow C. curtains D. bedspread
37. Clothes should be aired before they are ____
a. A. washed B. stored C. ironed D. bleached
38. Clothes should not be stored in a ____
a. A. box B. wardrobe C. damp place D. drawer
39. Which of the following should be removed from clothes before storage?
a. A. Collars and cuffs B. Buttons and pads C. Sleeves and collars D. Brooches and pins
40. Clothes can be stored in all except ____
a. A. bed B. closet C. box D. suitcase
41. All the items that we wear with our clothes are called ____
a. A. jewelry B. accessories C. hand bags D. supplementary

THEORY

1. Who is a home maker?
2. List two qualities and two responsibilities of a home maker.
3. State two uses of the sitting room.
4. Mention three features common to a traditional kitchen

MATHS

- i. Simplify $(+13) - (+6)$
2. (a) 7 (b) -7 (c) 19 (d) 8
3. Simplify $(+11) - (+6) - (-3)$
4. (a) 7 (b) 8 (c) 9 (d) 10
5. 3. Simplify $5x^3 \times 4x^7$ (a) $20x^4$ (b) $20x^{10}$ (c) $20x^7$ (d) $57x^{10}$
6. 4. Simplify $10a^8 \div 5a^6$ (a) $2a^2$ (b) $50a^2$ (c) $2a^{14}$ (d) $2a^{48}$
7. 5. Simplify $r^7 \div r^7$ (a) 0 (b) 1 (c) r^{14} (d) $2r^7$
1. Which of these is not a prime number (a) 2 (b) 5 (c) 7 (d) 1
8. Express 360000 in standard form (a) 3.6×10^5 (b) 3.6×10^6 (c) 3.6×10^3 (d) 3.6×10^4
9. Express 0.000045 in standard form (a) 4.5×10^{-2} (b) 4.5×10^3 (c) 4.5×10^{-5} (d) 4.5×10^{-6}
10. Which of these is not a factor of 42 (a) 9 (b) 6 (c) 7 (d) 2
11. Express 50 is product of its prime factor (a) 2×5^2 (b) 2×5 (c) $2^2 \times 5^2$ (d) 2×5
12. The lowest common multiple of 4, 6 and 8 is (a) 24 (b) 48 (c) 12 (d) 40
13. Find the smallest number by which 72 must be multiplied so that its products will give a perfect square (a) 3 (b) 2 (c) 1 (d) 5
14. The lowest common multiple of 4, 6 and 8 is (a) 24 (b) 48 (c) 12 (d) 40
15. The H.C.F. of 8, 24 and 36 is ____ (a) 6 (b) 4 (c) 18 (d) 20
16. The L.C.M. of 12, 16 and 24 is ____ (a) 96 (b) 48 (c) 108 (d) 24
17. 5 men build in 10 days, how long would it take 25 men?
 - a. 3 days (b) 2 days (c) 5 days (d) 10 days
18. A girl buys 7 pens for ₦ 210. How would ten pens cost? (a) ₦ 300 (b) ₦ 30 (c) ₦ 3 (d) ₦ 200
19. Fill in the gap in m: a = 16:24 (a) 10 (b) 12 (c) 4 (d) 6
20. Express 90km /hr: 120km /hr as simple as possible (a) 4:3 (b) 3:4 (c) 2:3 (d) 3:2
21. A factory makes ₦ 2000 pencils in 10 days, Find its production rate of pencils per day (a) ₦ 20 per day (b) ₦ 100 per day (c) ₦ 50 per day (d) ₦ 200 per day
22. Calculate the simple interest on ₦ 200 in 2 years at 4% per annum (a) ₦ 160n (b) ₦ 240 (c) ₦ 16 (d) ₦ 260
23. Calculate the simple interest on ₦ 20,000 for $2^{1/2}$ years at 2% per annum (a) ₦ 10 (b) ₦ 10,000 (c) ₦ 1000 (d) ₦ 2000
24. Find the simple interest on ₦ 40,000 for 1 year at 5% per annum (a) ₦ 100 (b) ₦ 250 (c) ₦ 2,590 (d) ₦ 50
25. What is the simple interest on ₦ 70,000 for 1 year at 4% per annum (a) ₦ 2,800 (b) ₦ 2,000 (c)

- ~~₦~~ 2,400 (d) ~~₦~~ 2,300
 26. Find the simple interest on ~~₦~~ 10,000 for 3 years at 6% per annum (a) ~~₦~~ 1,800 (b) ~~₦~~ 1000 (c) ~~₦~~ 1,850 (d) ~~₦~~ 1,200
27. What is 0.003867 to 3 significant figure (a) 0.004 (b) 0.00386 (c) 0.00387 (d) 386
 28. The square root of $121/2$ is ____ (a) $1\frac{3}{4}$ (b) $3\frac{1}{2}$ (c) $3\frac{3}{4}$ (d) $6\frac{1}{4}$
 29. 9852 to 3 S.F. is ____ (a) 990 (b) 9850 (c) 9580 (d) 986
 30. 7.0354 to 2 d.p is ____ (a) 7.03 (b) 7.04 (c) 7.40 (d) 7.13
 31. 59094 to the nearest hundred is ____ (a) 59100 (b) 59104 (c) 60094 (d) 60194
32. Simplify $(-6x) \times (-x) =$ ____ (a) $6x$ (b) $6x^2$ (c) $-6x$ (d) $-6x^2$
 33. Remove brackets from $-3(12a - 5)$ (a) $15-36a$ (b) $15a-36$ (c) $15a + 36$ (d) $36a - 15$
 34. Expand $(a+3)(a+4)$ (a) $a^2+7a+12$ (b) $a^2+12a+7$ (c) $a^2+12a-7$ (d) $a^2+7a-12$
 35. Factorize $abc + abd$ (a) $ab(c+d)$ (b) $ac(b+d)$ (c) $ad(b+c)$ (d) $abc(c+d)$
 36. Factorize $5a^2 + 2ax$ (a) $a(5a+2x)$ (b) $5(2a^2+2x)$ (c) $a(5x+2ax)$ (d) $a^2(5+2x)$
 37. Simply 8×10^9 divided by 4×10^6
- (A) $80^9/40^6$ (B) 4×10^{15} (C) 4×10^3 (D) 2×10^3
38. Simplify $-3 + (-3) - (-11)$
- (A) 17 (B) -17 (C) 5 (D) -5
39. Simplify $(-2) \times (-12)$
- $(+6)^2$
- (A) $2/3$ (B) $3/2$ (C) $5/6$ (D) $-1/7$
40. What is the co-efficient of 'y' in the expansion of $(6+y)(3-y)$?
- (A) 3 (B) 6 (C) -3 (D) -6

THEORY A

1. Expand the following:
 - a. $(p+2q)(p+3q)$
 - b. $(5r+2s)(3r+4s)$
2. Factorize the following
 - a. $-18fg - 12g$
 - b. $-5xy + 10y$

THEORY B

1. Find the square root of 1296
2. a. What is 0.046783 to 3 significant figure
b. 45.34672 to 2 d.p. is _____

THEORY C

1. Find the simple interest on the following
 - (a) ₦ 55,000 for 4 years at 60% per annum
 - (b) ₦ 25,000 for 3 years at 5% per annum

THEORY D

1. Find 50% of 3.5m
2. A bag of corn can feed 100 chicks for 12 days. How long would the same bag feed 80 chickens?

THEORY E

1. Find the smallest number by which 162 must be multiplied so that its product will give a perfect square.
2. Find the HCF and L.C.M. of the following figures
 - 30 & 42
 - 64 & 210

THEORY F

1. For each number 42,45,48,50
 - a. Write down all its factors.
 - b. State which factors are prime numbers?
 - c. Express the number as a product of its prime factors.
2. Express the following in standard form (a) 345000 (b) 0.00034 (c) 0.125

PHE

1. The striking games include the following except ____ (a)Baseball (b)Cricket (c)Long jump (d)Tennis.
 2. The activity of the Tennis game is governed by? (a) Traditional rules (b) Delegation (c) Doctrine (d) Rules and Regulations.
 3. Tennis game is played by ____ players on each side? (a) 1-2 (b) 2-3(c) 4(d) non of the above.
 4. These games are started with service except ____ (a)Badminton (b)Cricket (c)Table Tennis (d)Tennis.
 5. Table tennis started in ____ A. France B. Denmark C. Egypt D. None of the above
-
1. The following are terminologies in Table Tennis ____ (a)ace (b)deuce (c)let (d)rally
 2. A game can be won at A. 10-9 B. 13-12 C. 11-12 D. 11-9
 3. Which of these is not a skill in table tennis? A. Serving B. Smashing C. Dribbling D. Backhand drive
 4. The Chinese otherwise call the game A. shuttle cock B. poona C. ping-pong D. egg pouch
 5. The International Table Tennis Federation was formed in A. Berlin B. China C. France D. Japan
-
6. The second point in tennis counts A. 10 B. 15 C. 20 D. 30
 7. In the game of tennis, the prolonged exchange of strokes is referred to as A. Strokes B. Rally C. Lob D. Passing
 8. In tennis, a point after deuce for the server is called A. Out advantage B. Advantage in C. Advantage out D. Popular advantage.
 9. Which of the following equipment is used to play tennis game? A. Bat B. Racket C. Spear

10. D. Wicket.

11. What is the distance between the sidelines for doubles and singles in tennis? A. 1.30m B. 1.36m C. 1.38m D. 2.37m

12. School health is concerned with A. provision of employment B. provision of emergency C. provision of health services D. provision of counseling

13. Healthful school environment involves A. dirty environment B. provision of a clean physical environment C. health attitude D. none of the above.

14. Health means the total of an individual A. well being B. care C. sickness D. pain

15. Which of the following is not necessary for living a healthy life? A. health neglect B. health practice C. health habits D. health knowledge

16. A clean environment aids a person. A. sick B. bitter C. weak D. normal

17. Environmental pollution is the contamination of air, water and land from man-made ____ (a)air (b)goods (c)vapour (d)waste.

18. Which of these is not a cause or source of pollution? (a)plastic factories (b)Hospitals (c)Chemical plants (d)water pollution.

19. Effects of environmental pollution include the following except ____ (a)hearing loss (b)high blood pressure (c)HIV (d)sleep disturbance.

20. When sound becomes unhealthy, it is referred to as A. melody B. bad sound C. Noise D. None of the above.

21. These are types of pollutants except A. visual pollution B. Thermal pollution C. School pollution D. Radioactive pollution.

22. Contaminants causes instability, disorder and harm to the ____ (a)biological system (b)chemical system (c)physical system (d)all of the above.

23. ____ occurs when chemicals are released into the soil during spill or underground leakage. (a)Air pollution (b)Land pollution (c)Thermal pollution (d)Visual pollution.

24. Noise pollution covers roadway noise, aircraft noise and ____ (a)Pollution noise (b)land pollution (c)Industrial noise (d)none of the above.

25. Radioactive contamination covers ____ (a)atomic searches (b)nuclear weapon search (c)reaction (d)all of the above

26. The soil/land pollution can be controlled by the following except ____ (a)burning of soil (b)disallowing dumping chemicals on the soil (c)minimizing the use of insecticides and herbicides in the soil (d)public education.

27. Recreational activities could be Or [a] up , down [b] big , small [c] in door [d] outdoor

28. Which of the following is not an example of recreational activities [a] soccer [b] table tennis [c] ludo [d] none of the above

29. can be defined as a freedom from hazard [a] safety [b] education [c] accident [d] none of the above

30. Home accidents are also called ... [a] out accident [b] domestic [c] primary [d] none of the above

THEORY A

1. Define environmental pollution.
2. State three ways of preventing environmental pollution.

Theory B

1. List five people involved in health matters in the school.
2. What is the meaning of school health program?

Theory C

1. What is Love?
2. List five types of strokes.

Theory D

1. Narrate the history of the game
2. Mention three examples of the striking games

SOCIALSTUDIES

1. All the following are sources of values except A. Family B. School C. Hospital D. Mass media.
2. All the following factors influence our values except A. Respect B. Injustice C. Honesty D. Self control
3. One of the following is the importance of values A. Values promote peace and progress B. values enable us to commit crimes C. Values enable us to choose bad friends D. Values enable us to make mistakes.
4. Social justice as a factor that influences our values means A. We should treat people equally and fairly B. We should hate people C. We should dislike others D. We should always punish others.
5. Voluntary organizations include the following except A. Red cross B. Boys scout C. Girls brigade D. Nigerian Labour Congress.
6. Muslims go for their pilgrimage in one of the following cities A. Mecca B. Kuwait C. Jericho D. Baghdad.
7. The Christians main day of worship is A. Friday B. Monday C. Sunday D. Thursday
8. One of the following is not a pillar of Islam. A. Praying five times a day B. giving alms to the poor C. fasting during the month of Ramadan D. praying twice in a life time.
9. The Muslims main day of worship is on A. Monday B. Friday C. Sunday D. Saturday.
10. What name do the Igbo's call their God? A. Olorun B. Osanobua C. Abasi D. Chineke.
11. A Christian marriage normally takes place in the A. house of the bride B. in a big hall C. house of the bride groom D. church.
12. Another name for Muslim marriage is A. Nikkah B. Mikkah C. Sukkah D. Kinnah
13. Intra-ethnic marriage is marriage between A. people from different ethnic groups

- B. people from the same ethnic group C. people from more than two ethnic groups
D. people from the same compound.
14. Court marriage takes place in the A. house of the bride B. house of the bridegroom
C. court registry D. church.
15. Polyandry refers to a marital relationship between A. a man and a woman B. a man and two women C. a woman and a woman D. a woman and more than one husband.
16. Muslim marriage is conducted in the _____ A. house of the bride B. house of the bridegroom C. in the hotel D. in a town hall.
17. Marriage between people from different ethnic groups is known as _____ marriage A. intra – ethnic B. Nikkah C. inter – ethnic D. Polyandry
18. Marriage between people from the same ethnic group is known as _____ marriage A. Nikkah B. polyandry C. inter – ethnic D. intra – ethnic.
19. All the following are effects of lack of readiness in marriage except A. it leads to poverty B. it enhance cordial relationship between the husband and the wife C. the children are exposed to so many dangers D. it leads to separation.
20. In marriage, bride price is paid by the _____ A. groom B. bride C. bride's family D. friend of the bride.
21. Which of the following does not belong? A. Nuclear B. Extended C. Compound
a. D. Polyandry
22. Close and intimate relationship is a feature of A. Primary Social Group B. Secondary Social Group C. Nigeria Union of Teachers D. Nigeria Union of Journalists.
23. The family belongs to A. secondary social group B. primary social group C. tertiary social group D. universal social group
24. Living together in a family enhances all of the following except A. provision of essential needs B. protection of members C. happiness of members D. protection of anti – social behavior
25. Nuclear family is also known as _____ family A. distance B. peace C. family
a. D. immediate
26. The following are gender similarities except A. males and females have the same genitals B. the essential needs of both males and females are the same C. they both go through puberty and romantic feelings D. they can play different games.
27. All the following professions are regarded as male professions except A. bricklaying B. carpentry C. nursing D. lorry drivers
28. Which of the following is regarded as the role of females in the home? A. head of the family B. women propose marriages to men C. women perform manual jobs D. women are cooks in the homes.
29. One of these is not a factor that influences gender roles. A. television B. market C. parents D. educational curriculum.

30. The following are biological roles of women except A. women menstruate B. women carry pregnancy C. women breastfeed D. women do manual jobs
31. Males are stereotyped as being the following except A. caring B. uncaring C. strong D. brave.
32. Females are stereotyped as being the following except A. caring B. talking more C. talking less D. more prone to tears
33. All the following are negative effects of gender stereotype except A. it encourages violence B. it kills initiative C. it does not kill initiative D. it can be discriminating.
34. One of the following is not an importance of gender equality A. males and females are human beings B. males and females are parties in a relationship C. it promotes violence D. it enhances justice and equality.
35. All the following professions are regarded as male professions except A. nursing B. bricklaying B. carpentry C. plumbing D. truck drivers.

Theory:

1. A. What is gender stereotypes
B. Give examples of gender stereotypes
2. Mention five negative effects of gender stereotypes

Theory

1. Mention five gender similarities.
2. What are the factors that influence gender roles?

Theory:

1. Mention five advantages of living together in the family.
2. Identify the importance of good family reputation.

Theory

1. a. Define marriage.
b. Mention and explain five types of marriage.
2. Identify five purposes of marriage.
